

Paul and Rosalind Cortellini

Paul is an Italian native who entered the United States, along with his brother Conrad, in 1952. Roz is a native of Noblesville, Indiana. After marrying they spent 15 years living and working in Europe. Paul retired from Motorola in 2011 and he and Roz are now living in Bloomington, Indiana.

How I Came to the Fractal Art Project

With Conrad being my brother, I have been peripherally involved in the project ever since it began. Roz and I became more actively involved as artisans after I completed my cookbook and moved to Bloomington in 2014 when we had more time to spare.

Artist Statement

Hardly an artist, as an accountant I have an attraction to detail and process management which is helpful in the completion of the magnitude of modules needed to complete the art piece. With Roz's involvement in music she too has a feel for order but is keener in design and perfection so is responsible for quality control and putting the modules together.

Conrad, Roz and I enjoy lunching together once a week in Bloomington to assemble a module together, listening to classical music and enjoying a bottle of wine while eating one of Mom's recipes. [Paul Cortellini Blog](#) [Paul Cortellini Cookbook](#)
